Perhaps there is nothing more therapeutic than a fine dining experience. Culinary sophistication and high standards make for a memorable time for anyone in a restaurant. But we design freaks seek more and often end up lusting over great interiors at places like these. Right now we are admiring some fascinating restaurant designs. Seems like a lot of time and money has gone into making these spaces perfect for food and conversations. Not only do they manage to lure a large number of food junkies, their interiors serve as good inspiration for home dining spaces too.

Sometimes these are the places where we try to put the stress off of our shoulders. It's easy to get your work buddies and go out for a drink. Therefore the interior of such a place has to mix the beauty with the charm and the warm welcome. Since all these are subjective to taste, we provide a few design ideas for commercial interiors.
